The Electric Lake spreadsheet has been updated through July 2007 by Hansen Allen & Luce. I am attaching it to this email for your review. The format of the spreadsheet has not changed. It has just been updated with more recent data. As can be seen in the spreadsheet, the missing water or leakage rate appears relatively unchanged. If you have any questions or comments, please let me know. Thanks.

I have asked David Hansen to provide an updated spreadsheet that will go through July 2007. I should have the final review done within a week or two. As soon as it is final, I will forward you a copy. After that, if you would like to sit down with us and discuss questions/concerns, we would be happy to do so.

I will be prepared to make a short presentation on Electric Lake and the Huntington Creek Drainage for the next meeting (which I believe is February 7, 2008)

Look for our updated spreadsheet in the near future. Thanks.

Cody,

I think what we are looking for is just an update on the lake. I would personally like to see and update of the HAL spreadsheet with lake

File in: C:\0070005_2007_Summing

Refer to:

☐ Confidential
☐ Shelf
☒ Expandable

Date 11-26-07 For additional information

levels, inflows, "missing" water, etc. to see how things have gone since the last update.

At the meeting I think all are interested more or less in a general update on how the lake is doing, how pumping at JC-3 is going, any changes, etc.

Thanks,
Dana

What information are you asking for Susan? What exactly would you like me to present at the next meeting?

Cody

Hey Cody, Is there any way we can get the information before the next meeting? Thanks, Susan

Susan,
I will not be able to make the presentation this Thursday. I am flying out to Casper for some work up there tomorrow and won't be returning until Friday. I apologize for this and would be willing to present something in the next quarterly meeting if you wish. Just give me as much advanced notice as you can. Thanks Susan.

Cody
